SOURCES AND METHODOLOGY

Source materials include supplied Instagram Insights screenshots, TikTok Studio screenshots, YouTube Studio screenshots, Google Sheets exports, and Meta Planner screenshots for the August schedule.

Reporting windows differ slightly by platform. Instagram account-level and individual-post screenshots were captured at different reporting states, so their figures are presented separately. YouTube content published July 31 was excluded from period-specific rankings. Cross-platform views are not unique person counts and should not be added as though they represent distinct people.
